Advanced Imaging: Spinal Trauma, Vascular, Metabolic & Infections Disorders

License Renewal, CE hours: 12
CCSP hours: 12

I) Cervical spine trauma

- a) Roentgenometrics
- b) Fractures and dislocations
- c) Whiplash injury
- d) Sources of pain

II) Thoracolumbar spine trauma

- a) Roentgenometrics
- b) Fractures and dislocations
- c) Spondylolysis and spondylolisthesis
- d) The postsurgical back

Infections

- e) Suppurative
- f) Non-suppurative

III) Vascular conditions

- a) Osteonecrosis
- b) Bone infarct
- c) Misc.

Course Goals:

This program is tailored to equip the practicing chiropractor with a working knowledge of plain film radiographic signs associated with the above conditions. Salient clinical features of each disorder will also be discussed. Additionally, advanced diagnostic imaging protocols, where appropriate, will be presented.
