Advanced Spinal and Cranial Adjusting for the Pediatric Patient

License Renewal, CE hours: 12

CCSP hours: 12

After 12 hours of combined lecture, handouts, demonstration, case presentations, and experiential exercises, the doctor will be able to:

- 1) Assess the pediatric patient for spinal and cranial subluxations
- 2) Identify excessive cranial molding patterns
- 3) Explain the anatomical implications associated with colic, otitis media, torticollis, and learning disabilities
- 4) Restore normal biomechanics to the associated spine and cranial segments.

Outline:

- | | | |
|----------------------|------|---|
| 1 st Hour | I. | Craniosacral Review |
| | | A. Newborn Cranial Molding Pattern |
| | | B. Sphenobasilar/ Lumbosacral Synchronization |
| | | C. Cranial Rhythmic Impulse |
| 2 nd Hour | II. | Pediatric Treatment Protocol Review |
| | | A. Pediatric Exam |
| | | B. Craniosacral Synchronization |
| 3 rd Hour | III. | Pediatric Protocol Continued |
| | | A. Excessive Molding Demonstrated and Defined |
| | | B. Spinal and Cranial Evaluation |
| | | C. Intraoral Exam |
| 4 th Hour | IV. | Pediatric Protocol Continued |
| | | A. Myofascial Exam of the Extremities |
| | | B. Myofascial Exam of the Spine |
| | | C. Myofascial Exam of the Tongue |
| 5 th Hour | V. | Colic |
| | | A. Cranial Cause and Effect |
| | | B. Treatment |

- 6th Hour VI. Otitis Media
- A. Cranial Cause and Effect
 - B. Treatment
- 7th Hour VII. Torticollis
- A. In-Utero Constraint
 - B. Birth Trauma
 - C. Cranial Cause and Effect
 - D. Treatment
- 8th Hour VIII. Learning Disabilities
- A. Video Presentation of Learning Disabilities
 - B. Discussion on DDX between LD, ADD, ADHD, Brain Injury, and Sensory Integration
- 9th Hour IX. Learning Disabilities Cont.
- A. Visual Dysfunction
 - B. Sphenoid Evaluation
 - C. Treatment
- 10th Hour X. Learning Disabilities Cont.
- A. Auditory Dysfunction
 - B. Temporal Evaluation
 - C. Treatment
- 11th Hour XI. Learning Disabilities Cont.
- A. Proprioceptive Dysfunction
 - B. Olfactory and Tactile Dysfunction
 - C. Muscular Evaluation and Treatment
- 12th Hour XII. Conclusion and Discussion
